It is a manual to live a great life. It is only regurgitated information that we have already heard before and to be honest some information that are not soils at all. Accompanied by recent events in my life, I never felt so motivated, empowered and rested to the next step. It is a shame that some of the messages are not bad. read them several times now.

Thanks Dean, I'm going back and reviewing any time to improve myself and in return will be to improve my financial situation and wealth building This book is not only about money, is a life-time experience that goes influence and change your life. Incredibly teaches how to live and make changes in his life without taking longer his life. Long in stimulating conversation, short on substance. Everyone deserves this book. And on the site they will ask you to pay more than you paid for the book ... the brilliant reading with some amazing and technical processes to at least help you change the way you think about The creation or maintenance of a business. The same thing as every self-help book asks. It will be there for a lifetime. I loved it. So good that I read some chapters a few times. I loved the chater 1 until the end. I liked the stories that he told him to make him an immersive experience. " If you are Gunna do something, may well make him right!?!? If you want to get the best tips on how to grow your wealth, this is the book for you. I have now. & Nbsp; Avoid the Audio Version and Buy the Book! As mentioned, you do not need another book to succeed. It is not worth your valuable time. The "Timo Book, A very good book that contains many useful advice. I heard this guys book almost until the end. I wanted to rip my ears. Deans's history is incredibly inspiring! I love what transparent and honest he is. This book gave me the tools to take over of my life. It keeps your attention and provides a very good vision to help you in your life Easy to hear. "I have not done "A" "A" There would be so many exercises so that the book took me longer than I thought due to quantity and pair and start and repeating some sections in order to complete the exercises. Look elsewhere for substantive tips without the statements. Highly recommended. I like successful habits and I also liked every story in this book. An excellent motivational and oriented book. The reader was incredible, he communicated the message and the emotions so clearly as if it were his book. I kept listening to think that he was going to give me some value information so I could put it at work toward my goal, but I finally got to the point of boil where I knew I was going Having more of the same so I stopped listening. You will be listening to a 30-minute chapter, then the narrator will tell you to go to this site to do the exercise ... make yourself a favor and buy another book. I could not drop this book. Misleading, incomplete, false marketing. Everything seems so true and authentic, and I think everyone should read this book because as a result you will better understand life, and surely you will learn so many successful habits. My advice, do not waste your money !!! I am happy that I did not, I am a member of Amazon, so I have to choose a book to hear from fat and I wasted my choice in this book, but at least I did not pay the \$ 20- \$ 30 dollars that it costs. Dean's book has great advice transformed into simple steps to you begin to enter into action. Always the same. Automated page speed optimizations for the fast performance of the Loading Preview site, preview is currently unavailable. I just marked down because he's not narrating and because I've heard all those mess before. Thanks Dean for sharing his knowledge. Highly recommend book! This is good that 10-20-21 the contents are ok, but it is badly executed and "à "à I "à .oriehndi uem icidrepsed eurg otis e asrevnoc amu siam ioF .rivuo ed levÀssopmi esauq ©A Both the audiobook, which also bought the paper version to take notes. Dean provides the reader many small steps of action and habits that you can see the way. Audible, please allow zero stars. Who sà "declared the obvious !!!!!!! He told me nothing I did not know, nothing useful at all. Many books from this genus focus on motivating it. This book just repeated much of what I've heard from several other authors in the past. I had never finished a book from the beginning to the end. One thing is certain, if you listen or read your book you definitely know that it is like a 10-fold Best Book Seller, it repeats this a lot of times. Important ingredients mixed to make a definitive prescription for success. This book does this and more. But if this is your 1st book like this I think you will earn a lot with him. They eventually worked. Do not buy this book he will disappoint you a lot. Thanks to God for a version in this audiolivro! Not only for people of business spirit, but also for daily activities. Anxious to read more of his books and Tony Robbins, he mentions him a lot of a great way to see the life of a different perspective.
